Washington State Health Care Authority

Wraparound with Intensive Services (WISe)

Apple Health referral list of managed care plans by county, except where noted, as of May 21, 2025

Apple Health offers managed care plans in all regions statewide. Your plan coordinates physical health, mental health, and substance use disorder treatment services to provide whole-person care under one health plan.

Most Apple Health clients have managed care, which means Apple Health pays a health plan a monthly premium for your coverage, which include preventive, primary, specialty, and other health services. Clients enrolled in managed care must see providers who are in their plan's provider network, unless prior authorized or to treat urgent or emergent care.
