## Wraparound with Intensive Services

Spring  
2021

### What is WISE?

Wraparound with Intensive Services is designed to provide comprehensive behavioral health services and supports to Medicaid Eligible individuals up to 21 years of age with complex behavioral health needs and their families. WISE services include access to in-home therapy, psychiatry and crisis services.

### Did you know ?

The Multisystemic Therapy (MST) program has openings and can start services right away with youth/families in both Thurston and Mason Counties. MST is an evidenced-based practice that empowers caregivers to put effective interventions in place to reduce their youth's acting out behaviors. To initiate the screening process, submit a WISE Referral or call 360-918-7860

The Transitional Age Youth (TAY) WISE program at Community Youth Services (CYS) continues to serve all youth through a telehealth solution. We are accepting referrals for intakes and can schedule them within 10 days via the telehealth solution. We have immediate WISE capacity.

Catholic Community Services (CCS) continues to provide a hybrid model and is working on getting staff vaccinated and back into family homes. We are thinking about support that kids and families need during this challenging time and in preparation to return to more in-person lives. If you have ideas about what our community kids and families might need for healing, please share your ideas by emailing CCS – [heidw@ccsww.org](mailto:heidw@ccsww.org)

### Contacts...

**WISE Coordinator:** Questions, feedback and assistance with referrals.  
Donna Obermeyer 360-790-7505 [familyalliancewashington@gmail.com](mailto:familyalliancewashington@gmail.com)
